

Section 6 - B

Affiliated Hospitals

AFFILIATED HOSPITALS

Chinese Hospital

Chinese Hospital is CCHCA's primary hospital for most of its contracted health plans. For services not available at Chinese Hospital, the Utilization Management Department will make a determination as to where necessary services can be provided. Hospital services for obstetric and pediatric patients will be authorized at California Pacific Medical Center.

Chinese Hospital offers a wide range of medical, surgical and diagnostic services. Please utilize the services of Chinese Hospital by referring CCHCA patients as appropriate for both outpatient and inpatient care. Referral for services at Chinese Hospital does not require prior authorization.
